

SCAFFOLDING

Zarnas Access Solutions, Inc.

specializes in a wide range of scaffolding systems. Through Zarnas Access Solutions, we partner with scaffolding engineers on a multitude of new construction and heavy-duty industrial projects, which has provided us with the experience to be an approved distributor and constructor of scaffolding systems. We are a member company of the G.C. Zarnas & Co., Inc. entities; a nationally recognized leader in industrial and commercial specialty services.

Why Zarnas Access Solutions?

Signatory with the United Brotherhood of Carpenters and Joiners of America, Zarnas Access Solutions offers scaffolding designs, engineering services, safe erecting and dismantling, and extensive resources and support – directly to our clients or through general contractors.

We have decades of experience in estimating, project solutions and design, cost-control, management and construction... providing you "access" and a sole resource for abatement, coatings, waterproofing, fireproofing and related industrial and commercial services through the Zarnas family of companies.
